Quality policy

AJ Produkter AB is a leading supplier of office, warehouse and workshop furniture and equipment and has a wide and attractive range of quality products at the right prices.

We deliver by meeting and exceeding our [stakeholders'](#) expectations and our customers' requirements. Our highly motivated and dedicated employees provide a first-class service.

With the aim of maintaining and strengthening our market-leading position and promoting the development of the industry, we will: - be responsive to and adapt to customers' current and future requirements and expectations - constantly develop and improve our range and accompanying services - constantly develop and improve our products, suppliers and transport providers - continuously improve our quality system and increase its efficiency - reduce costs throughout the value chain in order to increase customer value, competitiveness and profitability.

Environmental policy

At AJ Produkter AB, we and our team of dedicated and conscientious employees, together with our customers and suppliers, will work to constantly improve our environmental performance and to find solutions that protect the environment by reducing the environmental impact of our transport, products and overall operations.

We comply with the relevant environmental legislation and other mandatory requirements and help to prevent pollution by avoiding the use of chemicals and other hazardous substances in our products.

Our environmental activities contribute to sustainable development. With the measures we take, we aim to achieve a balance between what is technically possible, financially viable and environmentally desirable.

Anders Johansson
CEO
